

Additional Activity

Science Investigation Template

Name **Date** **Period**

Purpose/To Do

The purpose of this activity is to apply *InterActions* ideas to areas of science that may be unfamiliar to you. Use this template if you doing a research project (either on an *InterActions* topic or another topic of interest, such as space travel), or if you are doing a report on a current science article (*What's Happening Now in Science*). Use the format below when presenting your report.

Format to be used for class presentations:

- Draw a picture on the left side of construction paper. This picture should be related to one or more of the facts listed below, and include an analysis in terms of interactions, energy and/or forces.
- Use the format below for the right side

Name
Date
Period

TOPIC TITLE HERE

Write Facts Here:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

- Use complete sentences.
- Include the proper reference citation for each site, article or book.

Format to be used for written reports:

- ❑ Name, date and period at top of page
- ❑ Topic Title
- ❑ Write a brief report using complete sentences. The report should include:
 - If you are doing *What's Happening Now in Science*, a brief summary of the article you read.
 - up to ten facts about the topic (they don't need to be listed, but they do need to be part of your report)
 - a picture or diagram related to one or more of the facts. The picture should include an analysis in terms of interactions, energy and/or forces.
- ❑ Proper references or citations for each site, article or book used in your report
