

Additional Activity

“Alien Jam Session” Interactions

Name _____

Date _____

Period _____

Purpose/To Do

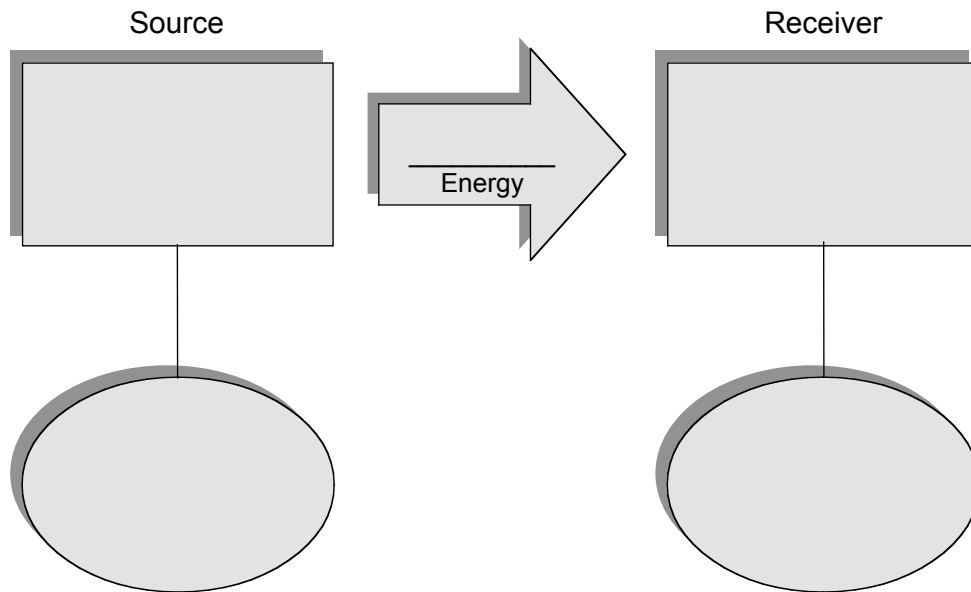

For this activity, you need to find **six** interactions in the “Alien Jam Session”. Use the format below to analyze each of the interactions you choose. Space for drawing a **force diagram**, writing an **explanation**, and **evaluating** that explanation is available on page 2. Use this sheet for the first interaction. You can use your own paper or make copies of this sheet for the other five interactions.

Teract, Kinet, Stas, and Modulas in a “jam session”

What is the evidence that an interaction occurred? _____

Type of Interaction _____

Force Diagram (mechanical and gravitational interactions only):

From the picture you selected, you deduced that certain changes in objects had occurred, and you took those changes as evidence that an interaction occurred. Explain why those changes occurred. _____

Evaluation of explanation (filled out by a partner if you have any): _____
