

Additional Activity

Home Action Movie

Name _____

Date _____

Period _____

Purpose/To Do

The purpose of this activity is to apply *InterActions* ideas to new situations. For this activity, you need to make an action video about one minute long. Then you need to find and analyze up to six interactions that occur in your home movie. Use the format below to analyze each of the interactions you choose. Space for drawing a **force diagram**, writing an **explanation**, and **evaluating** that explanation is available on page 2. You can use your own paper or make copies of this sheet.

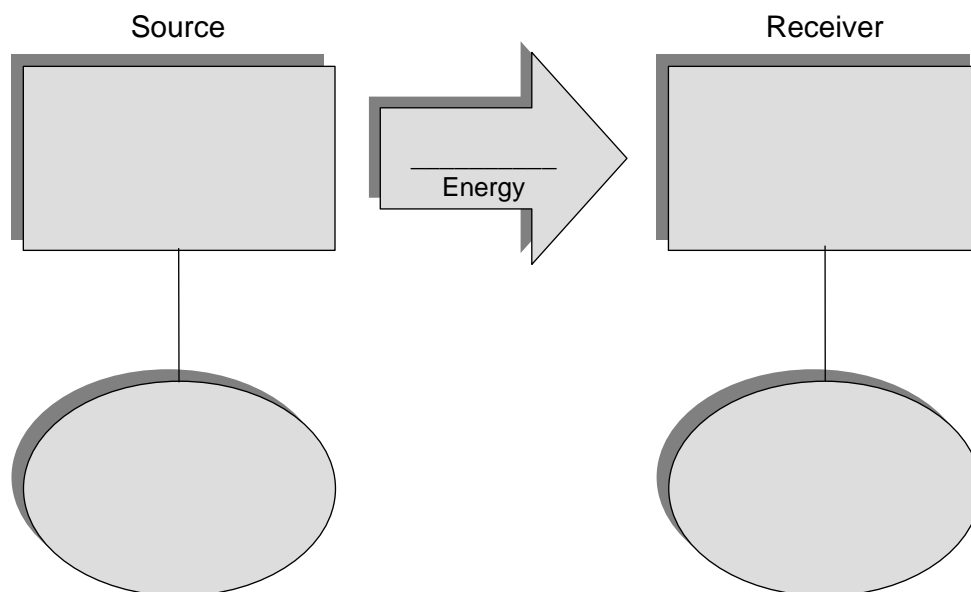

Title of Home Movie: _____

Partner(s): _____

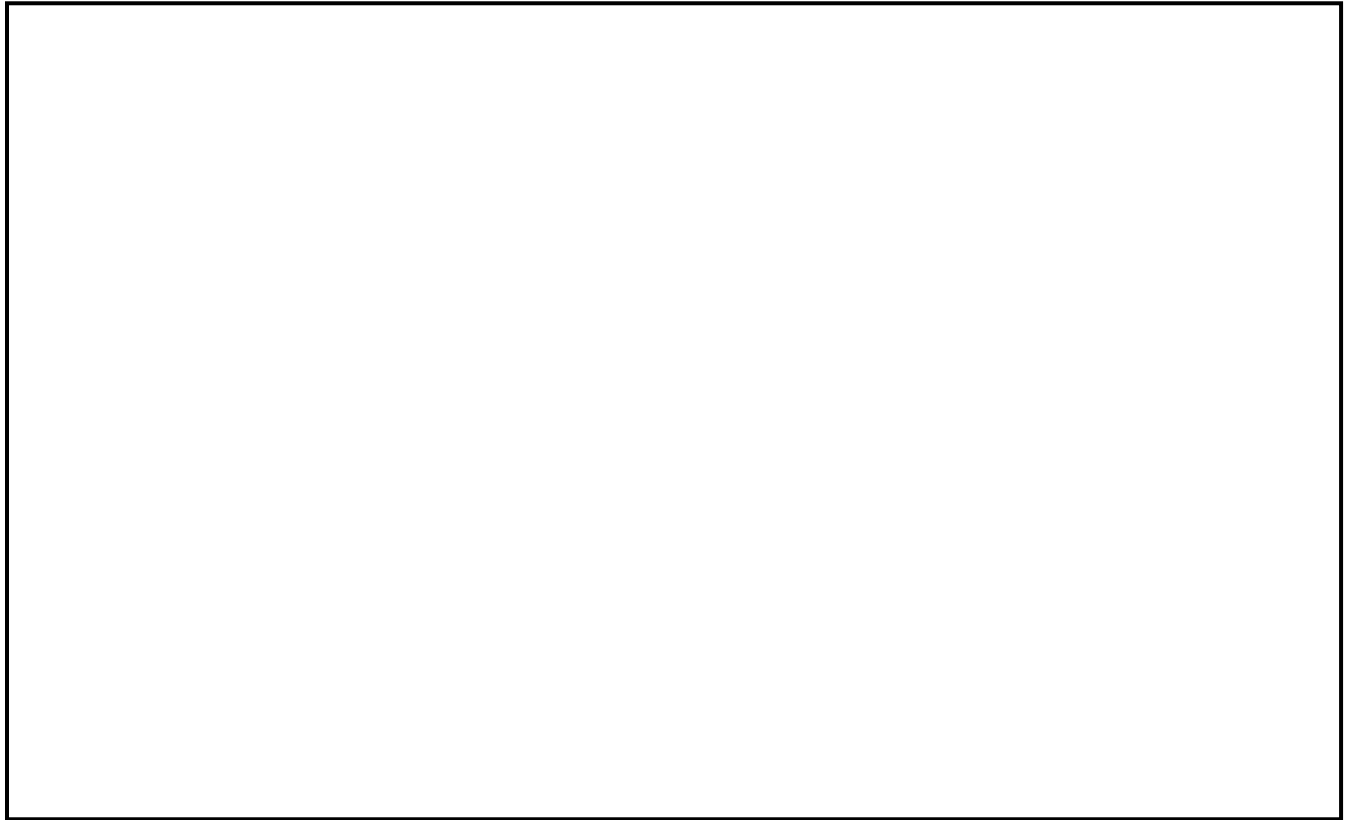

Scene description: _____

What is the evidence that an interaction occurred? _____

Type of Interaction _____

Force Diagram (mechanical and gravitational interactions only):

You observed certain changes in objects as evidence that an interaction occurred.
Explain why those changes occurred. _____

Evaluation of explanation (filled out by a partner if you have any): _____
